The Protection of Pupil Rights Amendment (PPRA) affords parents of elementary and secondary students certain rights regarding the conduct of surveys, collection and use of information for marketing purposes, and certain physical exams. These include, but are not limited to, the right to the following.

Voluntary Participation

Consent before students are required to submit to a survey that concerns one or more of the following protected areas ("protected information survey") if the survey is funded in whole or in part by a program of the U.S. Department of Education:

1. Political affiliations or beliefs of the student or student's parent;
2. Mental or psychological problems of the student or student's family;
3. Sexual behavior or attitudes;
4. Illegal, antisocial, self-incriminating, or demeaning behavior;
5. Critical appraisals of others with whom respondents have close family relationships;
6. Legally recognized privileged relationships, such as with lawyers, doctors, or ministers;
7. Religious practices, affiliations, or beliefs of the student or student's parent; or
8. Income, other than as required by law to determine program eligibility.

Notices and Opt-Outs

Receive notice and an opportunity to opt a student out of:

1. Any other protected information survey, regardless of funding;
2. Any nonemergency, invasive physical exam or screening required as a condition of attendance, administered by the school or its agent, and not necessary to protect the immediate health and safety of a student, except for hearing, vision, or scoliosis screenings, or any physical exam or screening permitted or required under state law; and
3. Activities involving collection, disclosure, or use of personal information collected from students for marketing or to sell or otherwise distribute the information to others. (This does not apply to the collection, disclosure, or use of personal information collected from students for the exclusive purpose of developing, evaluating, or providing educational products or services for, or to, students or educational institutions.)

Screening

Inspect, upon request and before administration or use, the:

1. Protected information surveys of students and surveys created by a third party;
2. Instruments used to collect personal information from students for any of the above marketing, sales, or other distribution purposes; and
3. Instructional material used as part of the educational curriculum.

Rights Transference

These rights transfer from the parent to a student who is 18 years old or an emancipated minor under state law.

The School at Northeast and the Neil Hellman School will:

- Develop policies, in consultation with parents, regarding these rights, as well as arrangements to protect student privacy in the administration of protected information surveys and the collection, disclosure, or use of personal information for marketing, sales, or other distribution purposes;
- Directly notify parents of these policies at least annually at the start of each school year and after any substantive changes;
- Directly notify, through the U.S. Post Office or email, parents of students who are scheduled to participate in the specific activities or surveys noted below and provide an opportunity for the parent to opt out the student from participating in the specific activity or survey;
- Make this notification to parents at the beginning of the school year if the district has identified the specific or approximate dates of the activities or surveys at that time;
- For surveys and activities scheduled after the school year starts, parents will be provided reasonable notification of the planned activities and surveys listed below and be provided an opportunity to opt out the student from such activities and surveys.
- Provide parents the opportunity to review any pertinent surveys.

Following is a list of the specific activities and surveys covered under this direct notification requirement:

- Collection, disclosure, or use of personal information collected from students for marketing, sales, or other distribution;
- Administration of any protected information survey not funded in whole or in part by the U.S. Department of Education; and
- Any nonemergency, invasive physical examination or screening as described above.
